

# What is the traffic like on your Grass?

GRASSPROTECTA™ is available in three grades for various traffic frequencies and vehicle types

**Pedestrian, bikes & infrequent cars**

- Grass paths
- Wheelchair access
- Lawn parking

**Lite:** 10mm thick mesh

**Occasional cars & vans**

- Golf Buggy paths
- Verge protection
- Overflow grass parking

**Medium:** 13mm thick mesh

**Regular cars & vans**

- Event grass parking
- Caravan park / holiday areas
- Grass car parks

**Heavy:** 14.5mm thick mesh

\*Regular traffic means consecutive daily use in the growing season on well drained grass. Allow days for the grass to recover
